# Academic Program and Course Description Guide

# Introduction:

The educational program is a well-planned set of courses that include procedures and experiences arranged in the form of an academic syllabus. Its main goal is to improve and build graduates' skills so they are ready for the job market. The program is reviewed and evaluated every year through internal or external audit procedures and programs like the External Examiner Program.

The academic program description is a short summary of the main features of the program and its courses. It shows what skills students are working to develop based on the program's goals. This description is very important because it is the main part of getting the program accredited, and it is written by the teaching staff together under the supervision of scientific committees in the scientific departments.

This guide, in its second version, includes a description of the academic program after updating the subjects and paragraphs of the previous guide in light of the updates and developments of the educational system in Iraq, which included the description of the academic program in its traditional form (annual, quarterly), as well as the adoption of the academic program description circulated according to the letter of the Department of Studies T 3/2906 on 3/5/2023 regarding the programs that adopt the Bologna Process as the basis for their work.

In this regard, we can only emphasize the importance of writing an academic programs and course description to ensure the proper functioning of the educational process.

# **Concepts and terminology:**

Academic Program Description: The academic program description provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

<u>Course Description</u>: Provides a brief summary of the most important characteristics of the course and the learning outcomes expected of the students to achieve, proving whether they have made the most of the available learning opportunities. It is derived from the program description.

<u>Program Vision:</u> An ambitious picture for the future of the academic program to be sophisticated, inspiring, stimulating, realistic and applicable.

<u>Program Mission:</u> Briefly outlines the objectives and activities necessary to achieve them and defines the program's development paths and directions.

<u>Program Objectives:</u> They are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

<u>Curriculum Structure:</u> All courses / subjects included in the academic program according to the approved learning system (quarterly, annual, Bologna Process) whether it is a requirement (ministry, university, college and scientific department) with the number of credit hours.

<u>Learning Outcomes</u>: A compatible set of knowledge, skills and values acquired by students after the successful completion of the academic program and must determine the learning outcomes of each course in a way that achieves the objectives of the program.

<u>Teaching and learning strategies</u>: They are the strategies used by the faculty members to develop students' teaching and learning, and they are plans that are followed to reach the learning goals. They describe all classroom and extracurricular activities to achieve the learning outcomes of the program.

# **Academic Program Description Form**

University Name: .....

Faculty/Institute: Al-Kut University College

Scientific Department: Department of Physical Education and Sports Sciences

Academic or Professional Program Name: Department of Physical Education

and Sports Sciences

Final Certificate Name: Department of Physical Education and Sports

Sciences

Academic System: system four years/semi annually

Description Preparation Date: 20 /10 /2024

File Completion Date: 20 / 10 /2024

# 1. Program Vision

The Department of Physical Education and Sports Sciences looks forward to providing everything new and useful in the field of developments

## 2. Program Mission

The Department of Physical Education and Sports Sciences seeks to spread sports culture and raise sports awareness among members of society by preparing qualified and specialized scientific cadres in the field of sports education to advance the sports reality and prepare a generation according to local and international quality standards and in a way that meets the needs of society.

## 3. Program Objectives

- Motivating students to review basic information
- Understanding the psychological aspect of the student
- Diversifying the student's cultural information
- Developing training plans and programs through workshops and seminars

#### 4. Program Accreditation

**Nothing** 

#### 5. Other external influences

Training and arbitration courses, field visits, hosting tournaments

# 6. Program Structure

# **Professional Development**

#### Mentoring new faculty members

- 1\_ Developing teamwork: The skill of recognizing the viewpoints of others, listening, respecting students' opinions.
- 2\_ Creative thinking skills: Sensing problems, monitoring, taking notes, organizing time.
- 3 Enhancing leadership: Discrimination skills, intuition skills, accessibility to treatments.
- 4\_ Decision-making: Independence in work, ability to analyze, present information, planning.

#### Professional development of faculty members

1\_ Developing teamwork: The skill of recognizing the viewpoints of others, listening, respecting students' opinions.

- 2 Creative thinking skills: Sensing problems, monitoring, taking notes, organizing time.
- 3 Enhancing leadership: Discrimination skills, intuition skills, accessibility to treatments.
- 4 Decision-making: Independence in work, ability to analyze, present information, planning

## 12. Acceptance Criterion

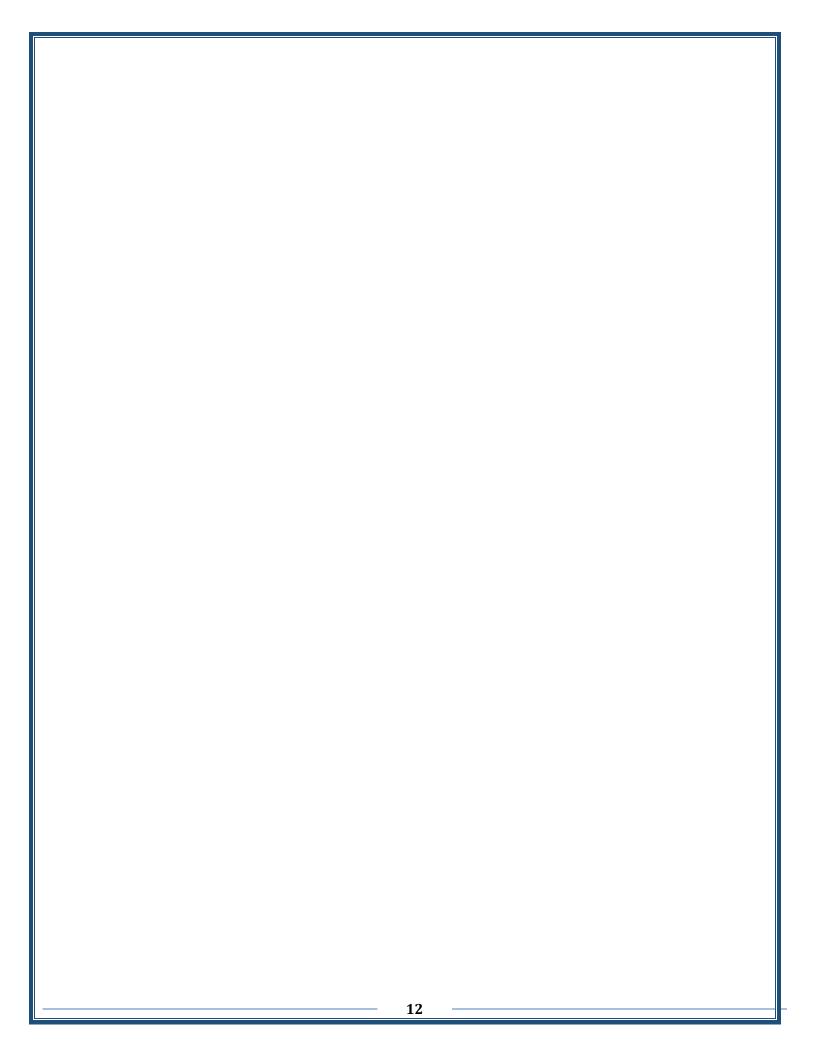

- 1 Admission test 60, which is the student's overall average.
- 2- Medical examination test.
- 3- Passing competitive tests, which are physical and skill tests.
- 4- Passing the theoretical test and personal interview.
- 5- Using criteria for admission by relying on the scientific foundations of the tests and accepting the best according to the central admission plan

## 13. The most important sources of information about the program

- 1- Notes. 2- Course textbooks.
- 3- Scientific journals.
- 4- Periodicals.
- 5- Information network (Internet).

# 14. Program Development Plan

- 1- Conducting periodic training courses in the specialty.
- 2- Integrating students into qualifying institutes to work in state institutions.
- 3- Using the Internet for scientific expansion and development.
- 4- Encouraging continuous visits to the library.
- 5- Holding joint exhibitions that reflect the students' ability to work, innovate and develop.
- 6- Continuous follow-up of students who need more information, awareness and understanding of the vocabulary of some subjects
