Academic Program and Course Description Guide

Introduction:

The educational program is a well-planned set of courses that include procedures and experiences arranged in the form of an academic syllabus. Its main goal is to improve and build graduates' skills so they are ready for the job market. The program is reviewed and evaluated every year through internal or external audit procedures and programs like the External Examiner Program.

The academic program description is a short summary of the main features of the program and its courses. It shows what skills students are working to develop based on the program's goals. This description is very important because it is the main part of getting the program accredited, and it is written by the teaching staff together under the supervision of scientific committees in the scientific departments.

This guide, in its second version, includes a description of the academic program after updating the subjects and paragraphs of the previous guide in light of the updates and developments of the educational system in Iraq, which included the description of the academic program in its traditional form (annual, quarterly), as well as the adoption of the academic program description circulated according to the letter of the Department of Studies T 3/2906 on 3/5/2023 regarding the programs that adopt the Bologna Process as the basis for their work.

In this regard, we can only emphasize the importance of writing an academic programs and course description to ensure the proper functioning of the educational process.

Concepts and terminology:

Academic Program Description: The academic program description provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

<u>Course Description</u>: Provides a brief summary of the most important characteristics of the course and the learning outcomes expected of the students to achieve, proving whether they have made the most of the available learning opportunities. It is derived from the program description.

<u>Program Vision:</u> An ambitious picture for the future of the academic program to be sophisticated, inspiring, stimulating, realistic and applicable.

<u>Program Mission:</u> Briefly outlines the objectives and activities necessary to achieve them and defines the program's development paths and directions.

<u>Program Objectives:</u> They are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

<u>Curriculum Structure:</u> All courses / subjects included in the academic program according to the approved learning system (quarterly, annual, Bologna Process) whether it is a requirement (ministry, university, college and scientific department) with the number of credit hours.

Learning Outcomes: A compatible set of knowledge, skills and values acquired by students after the successful completion of the academic program and must determine the learning outcomes of each course in a way that achieves the objectives of the program.

<u>Teaching and learning strategies:</u> They are the strategies used by the faculty members to develop students' teaching and learning, and they are plans that are

followed to reach the learning goals. They describe all classroom and extracurricular activities to achieve the learning outcomes of the program.

Approval of the Dean

1. Program Vision

Program vision is written here as stated in the university's catalogue and website.

2. Program Mission

Program mission is written here as stated in the university's catalogue and website.

3. Program Objectives

General statements describing what the program or institution intends to achieve.

4. Program Accreditation

Does the program have program accreditation? And from which agency?

5. Other external influences

Is there a sponsor for the program?

6. Program Structure

		Т		
Program Structure	Number of	Credit hours	Percentage	Reviews*

Learning Outcomes 2	Learning Outcomes Statement 2				
Learning Outcomes 3	Learning Outcomes Statement 3				
Ethics					
Learning Outcomes 4	Learning Outcomes Statement 4				
Learning Outcomes 5	Learning Outcomes Statement 5				

9. Teaching and Learning Strategies

Teaching and learning laser, optoelectronics and methods adopted in the implementation of the program in general.

10. Evaluation methods

Implemented at all laser, optoelectronics of the program in general.

11. Faculty

Faculty Members

Academic Rank	Specialization		Special Requirements/Skills (if applicable)	Number of the	teaching
	General	Special		Staff	Lecturer
Asst. Prof. Dr. Taleb Zidane Taabn	Physics Sciences	Laser and Optoelectronics Engineering		Staff	
Asst. Prof. Dr. Ahlam Hussein Jaafar	Physics Sciences	Laser and Optoelectronics Engineering		Staff	
Dr. Rabbi Nouri Hamoudi	Physics Sciences	Laser and Optoelectronics Engineering		Staff	
Dr. Hisham Abdul Malik Abdul Majeed	Physics Sciences	Laser and Optoelectronics Engineering		Staff	
Mr. Haider Saad Ali	Pure Sciences	Applied		Staff	
Mr. Noon Kazem Shia	Physics Sciences	Laser and Optoelectronics Engineering		Staff	
Mr. Baraq Abdul Ghani Mazloum	Physics Sciences	Nanotechnology		Staff	
Mr. Mustafa Rafid Abdul Majeed	Petroleum Engineering	Production		Staff	
Mr. Yasser Mohammed Faleh	Information Technology Engineering	Information Technology		Staff	
Mr. Anwar Hashem Marih	Mathematics Sciences	Pure		Staff	

Mr. Duaa Munther Sadiq	Engineering	Materials		Staff	
Mr. Ibrar Abdul Jabbar Jaddah	Civil Engineering	Roads and Transportation		Staff	
Mr. Khaled Abdul Hussein Hafez	Mechanical	Minerals		Staff	

Professional Development

Mentoring new faculty members

Briefly describes the process used to mentor new, visiting, full-time, and part-time faculty at the institution and department level.

Professional development of faculty members

Briefly describe the academic and professional development plan and arrangements for faculty such as teaching and learning strategies, assessment of learning outcomes, professional development, etc.

12. Acceptance Criterion

(Setting regulations related to enrollment in the college or institute, whether central admission or others)

13. The most important sources of information about the program

State briefly the sources of information about the program. 14. Program Development Plan

	Program Skills Outline														
							Requ	uired	progr	am Lo	earnin	g outcon	nes
