العنوان الوطني

استاذ مشارك

المهارات

- ١ المهارات الحاسوبية Computer Skills
- ٢ مهارات تحليل البيانات Data Analysis

اللغات

- ١ اللغات الأجنبية (عربي و انكليزي و فارسي)

Name & Personal Brief

- **Luma Hikmat Kareem Al-Bayati**

Contact Info

	female
	Iraqi
	Arabic

Skills

- 1- Computer Skills
- 2- Data Analysis

Languages

- 1- Arabic
- 2- English

Experience

Employee in Ministry of Higher education Wasit University College of Medicine 2005- until now.

Member of teaching staff in college of Medicine / Wasit university until 2023

Member of teaching staff in Al- Kut university college 2023 now

Head Department of medical laboratory technology

Education

Bachelor's degree (B.Sc. College of Veterinary Medicine –Al-Qadysia University). 1999 – 2000

• Master's degree (Zoonotic Disease ,College of Veterinary Medicine –Baghdad University) 2002-2005.

• PhD (Microbiology, College of Veterinary Medicine –Tahran University -Iran) 20015 – 2018

Courses

- the basic principles of PCR technology in diagnosing diseases
- Causes of infectious bacterial reproductive diseases and the most important modern laboratory methods approved in their diagnosis and methods of prevention
- Causes of cervical cancer and facts about what women need to know about its complications and how to detect it early and methods of prevention
- Biological safety and security in educational laboratories

Published articles

- Preparation and characterization of titanium dioxide nanoparticles and in vitro investigation of their cytotoxicity and antibacterial activity against Staphylococcus aureus and Escherichia coli
- Serological and Histopathological Investigation of Chlamydia abortus in Aborted Ewes in Wasit, Iraq
- SEROLOGICAL DETECTION OF COXIELLA BURNETII IN RAW MILK OF GOATS IN BAGHDAD, IRAQ
- Quantitative analysis of the three gut microbiota in UC and non-UC patients using real-time PCR
